Friends of the Joe Hogan Memorial Tournament:

In September of 2009, the Hospice of Windsor Golf Tournament joined the Joe Hogan Memorial Tournament. We feel that the combined talents not only make a huge difference in our Community but Provide a Golf Fun Day to remember.

Over the past ten years the Joe Hogan Memorial Golf Tournament has come a long way from its modest beginnings of 90 participants to today where we have approximately 400 participants. During this time we have raised more than a quarter of a million dollars for the Windsor & Essex County Cancer Centre Foundation. These funds went to help purchase, Chemo pumps, MRI, CT scan, Prostate Brachy Equipment, and research funding. The day of the event is dedicated to educating & raising awareness as to the importance of research and providing proper equipment for early detection and diagnosis of cancer.

"To Support, educate and empower those who are affected by or are caring for a person with a life-threatening illness." This has been the Hospice of Windsor & Essex County's creed since 1979. They offer programs and services addressing physical, emotional, mental and spiritual needs of both patients and caregivers. Their services can be initiated anywhere along the illness continuum, starting with the diagnosis, continuing through the various stages of illness and into the potential end points of wellness, remission and palliative care. Their programs and services focus on education, support, pain/symptom management and end of life care.

Mark your calendars because on September 16th 2010, these two tournaments continue joining forces under the name of the Joe Hogan Memorial to give you a golf fun day to remember, supporting two very important organizations in our community. The Windsor Essex County Cancer Centre Foundation and Hospice of Windsor Essex County.

We feel with the merging of these tournaments we will continue to enable us to surpass previous expectations and bring you a Golf Fun Day to remember, reiterating our commitment that one day cancer will be history.

Thank You,

Doug Hogan
